**Japanese Getting Ready for Another Spring at Fortress.**  
**Besiegers Actively Engaged in Constructing Forts on Captured Positions—Baltic Fleet Tarries at Libau, Awaiting Developments—Quiet at Mukden—The Lena Will be Dismantled.**  
**[BY THE ASSOCIATED PRESS—P.M.]**  
**ST. PETERSBURG, Sept. 15, 1:30 a. m.—**(By Atlantic Cable.) The almost complete quiet prevailing at Liao Yang and Mukden is accepted here as the natural and inevitable consequence of the furious activity of the past three weeks. The view taken at Mukden that there is not likely to be a resumption of fighting in that immediate locality for a month is regarded here as most probably correct.  
It can hardly be expected that much actual news will develop in Central Manchuria for some time to come, as attention is now turning toward Port Arthur, where, as Gen. Stoessel's latest report indicates, the Japanese are gathering strength for another spring at the fortress. It is taken for granted here that there will soon be news of importance from Port Arthur, since the Japanese throughout the war have seemed to alternate their attentions between the beleaguered fortress and the Russian army toward the north. It thus appears that it is Port Arthur's turn to keep up the excitement, while Field Marshal Oyama is preparing for the fall campaign.  
Grand Duke Alexander Michaelovitch, head of the Russian merchant marine, has gone to Libau to inspect the converted cruisers there before they depart for foreign waters.  
The Baltic fleet remains at Libau awaiting orders.  
**JAPS BUILDING FORTS.**  
**[BY THE ASSOCIATED PRESS—A.M.]**  
**ST. PETERSBURG, Sept. 15.—**A dispatch from Gen. Stoessel, commander of the Russian military forces at Port Arthur, says the Japanese are actively constructing forts on the Si-moon mountain and at other points and that they continue to bombard the forts and harbor. September 2, they threw 250 shells into the town.  
The Japanese, the dispatch adds, have issued a proclamation to the Russian troops, demanding their surrender.  
Says the report:  
"On September 3 the enemy received reinforcements on the west front of the fortress. During the bombardment of Sept. 2, the Japanese squadron remained the whole time in view of the fortress."

**The Times Excursionists Resume Their Journey Eastward Leaving "Pinky" to Come Home Alone.**  
**[BY DIRECT WIRE TO THE TIMES.]**  
**INSIDE INN, ST. LOUIS (Mo.) Sept. 15.—**(Exclusive Dispatch.) Happy as children to get aboard their luxurious train again, The Times excursionists left St. Louis for Chicago at 11:30 tonight. They were mixed up today on the World's Fair grounds in the biggest crowd they ever saw. Absence of drunkenness and disorderly conduct was marked in these unprecedented multitudes of St. Louis Day. The Times party has thoroughly enjoyed its stay in St. Louis and has had many attentions from the local press. Mayor Snyder has started on his homeward journey.

**PRECAUTIONS AGAINST THE MOB AT HUNTSVILLE, ALA.**  
**Threats Have Been Made that Indicted Persons Would be Set at Liberty by Their Friends—Report that Sheriff and Mayor Have Been Impeached is Unfounded.**  
**[BY THE ASSOCIATED PRESS—P.M.]**  
**HUNTSVILLE (Ala.) Sept. 15.—**The Madison County Jail is guarded tonight by Companies G and K, Third Alabama Infantry, Capt. Lucien Brown, because threats have been made that persons indicted by the grand jury for connection with the lynching of Horace Maples and placed in this jail would be taken out by their friends and set at liberty.  
Ben Hill, one of the alleged lynchmen, was captured and lodged in jail today, and the officers are looking for nine others who have been indicted. Judge Speaks of the Circuit Court heard rumors of impending trouble, and telegraphed to acting Governor Cunningham, asking for militia. The troops reached here on a special train late today, and pickets guard all approaches to the jail. No trouble is anticipated, so long as the jail is guarded in this manner. Capt. Brown has orders to preserve the peace of this community, even if the city be placed under martial law. He has camp equipment, and is prepared for a long stay.  
Solicitor Peters denies the rumor that Sheriff Rogers and Mayor Smith have been indicted. The only foundation for this report is the fact that the grand jury has asked for instructions as to how to proceed to bring about the impeachment of these officers, if such action should be deemed advisable.  
**SALOON KEEPER ASSASSINATED.**  
**SILVERTON (Colo.) Sept. 15.—**Peter Dalia, a saloonkeeper, was assassinated today by means of dynamite exploded in his bedroom. His body was terribly mutilated. The building was wrecked and a dozen others were imperiled. Posses are searching the hills for Bernardo Puerto, Dalia and Fred had quarreled over the latter's attentions to the former's fiancée.  
**DIG THE CANAL DEEP ENOUGH.**  
**Commissioners Return from Panama With a New Problem for Congress.**  
**[BY DIRECT WIRE TO THE TIMES.]**  
**WASHINGTON, Sept. 15.—**(Exclusive Dispatch.) The members of the Isthmian Canal Commission returned from the Isthmus today, and coincident with their return it was learned that there is a possibility that all plans and estimates for the construction of the Panama Canal may have to be set aside and entirely new plans and estimates made.  
It has been accepted as a fact by engineers and laymen that the canal would be constructed with a thirty-five-foot channel, and it is upon that basis that all estimates submitted to the President and Congress have been made within recent years, and upon that basis the Canal Commission commenced its work. It is discovered now, however, that in order to be certain that the canal will always be available for use, without further work after completion, it will be necessary to make a channel thirty-eight or possibly forty feet deep.  
If the canal had been constructed twenty years ago, it seems certain that the channel would have been made only twenty-five feet deep. Now, however, channels of great harbors like New York are made forty feet deep, to accommodate the biggest ocean liners, and the commission is confronted with that condition. It is understood that the commission will have a conference with the President about this extremely important matter as soon as he returns to Washington.  
**CROWN PRINCE MUST PAY TAX.**  
**BRELAU (Prussia) Sept. 15.—**The appeal of the Crown Prince Frederick William against paying taxes on his estate at Cella was decided against him today by the District Tax Administrators, who upheld the judgment of the cantonal authorities. The Tax Administrators assessed the Prince \$250 on his income from the estate, \$21,600.

**Great Conflagration at Halifax.**  
**Explosives Used to Save the City from Tremendous and Fatal Disaster.**  
**Half a Million Dollars Worth of Property Burned and a Woman Killed.**  
**Firemen Fatally Injured and Another and Two Unknown Persons Hurt.**  
**[BY THE ASSOCIATED PRESS—P.M.]**  
**HALIFAX (N. F.) Sept. 15.—**A fortunate shift of wind saved Halifax from destruction by fire today. Nevertheless the city suffered a loss of half a million dollars in the business part of the waterfront, and the progress of the flames was only stayed by the dynamiting of a dozen buildings by the sailors from the fleet and soldiers from the garrison.  
Between 3 and 4 o'clock this afternoon, when the fire was at its height and a fearful southerly gale, was pushing it straight toward the heart of the business center, consternation reigned throughout the entire city. Shortly after 4 o'clock, however, the wind shifted and turned the flames along the wharves and warehouses.  
There the fire raged on lower Water street, practically beyond control, until 7 o'clock tonight, when 200 sailors with torpedo apparatus landed, and with the assistance of 200 troops checked further progress by removing, with the aid of dynamite, a dozen small buildings.  
The fire consumed six wharves, two coal piers, two hotels, a dozen warehouses and a number of retail shops. During the fire a large 1200 fell, killing Flora Ring, 38 years old, and wounding two others.  
Admiral Sir Archibald Douglas personally directed the sailors in protecting imperial property, and 200 marines patrolled the streets.  
One fireman was fatally injured by a live wire, and another was badly hurt by falling stairs.  
The burned district, which covered about two acres, was one of wooden buildings three and four stories high, many of them built years ago when Halifax merchants dealt heavily in fish.  
Crowds of people who had rushed down Smith wharf found themselves hemmed in with the fire on one side and the harbor on the other, and all had to be taken off by launches from the wharves. By this time the entire city had begun to realize the gravity of the situation.  
At 3:30 o'clock, it looked as if nothing could stop the progress of the flames from the main business district and from the residential section beyond. Every effort on the part of the firemen to stay the flames was futile. Then came a providential shift of wind. By this time the government officials had assumed full charge of the situation, for not far ahead was the big ordnance yard, with thousands of tons of powerful explosives. A party of sailors, together with a company of Royal Engineers, landed to the north of the fire and began blowing up buildings. For an hour the entire city shook with the terrific explosions. When the fire had reached the cleared space, it stopped.  
**BURNED BRIDGE COLLAPSES.**  
**DISASTER AT STILLWATER.**  
**[BY THE ASSOCIATED PRESS—P.M.]**  
**STILLWATER (Minn.) Sept. 15.—**The half-mile bridge across Lake St. Croix, extending to the Wisconsin side, caught fire this afternoon. The fire created some commotion, and the fire apparatus, in responding to the alarm, attracted the usual crowd of persons. The fire had so weakened one of the spans of the bridge that when the fire apparatus and the crowd attempted to cross it, it fell into the water about twenty feet below. About twenty persons were precipitated with the wreckage into the water, and two were killed and five seriously injured. The dead: ADOLPH BOO, aged 22 years; son of a local hotel-keeper. GEORGE McGRATH, aged 16, son of Andrew McGrath. The injured: RAY FRENCH, probably fatally injured. EDWARD McPETERS. JAMES McGRATH, fireman. AUGUST WOJOHN. LOUIS GERUTINS. The financial loss is \$2000.  
**JAP EXHIBITORS' PRESIDENT.**  
**ST. LOUIS, Sept. 15.—**Jihel Nishimura, president of the Japanese Exhibitors' Association of the World's Fair, left today for Japan. Nishimura will be succeeded by Otani, who will arrive in two months to close up the business of the association.

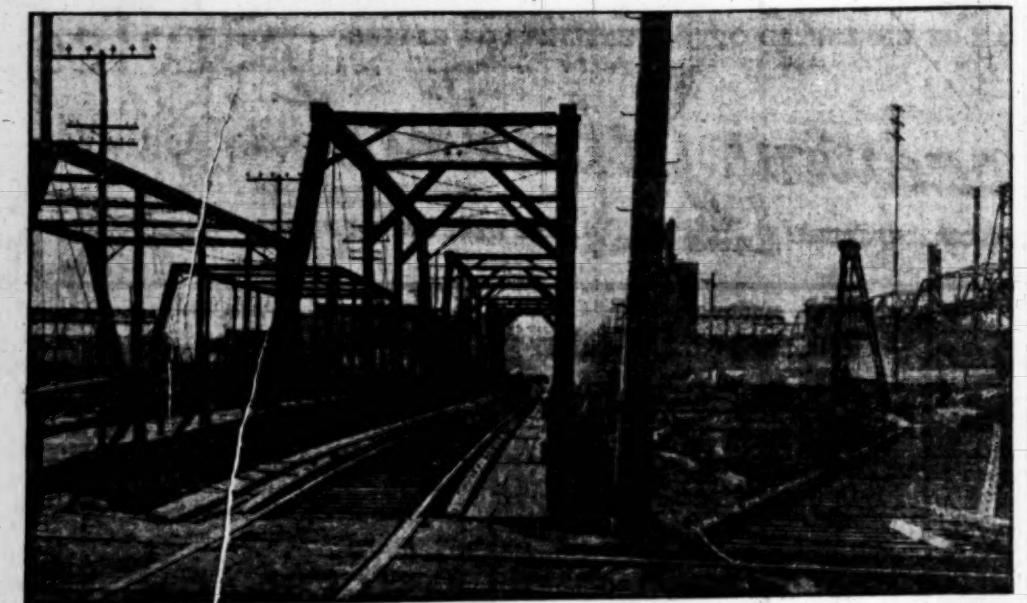

# Building Bridge Around Bridge For a New Bridge.

Here is a picture of the temporary bridge of the Pacific Railway Company, crawling across the dusty Los Angeles River at the rate of more than twenty feet a day, and designed to carry the many cars of the line reaching into the great north country while the large new structure at Aliso street is being built. The old bridge is shown at the left of the picture.

Many persons have no idea of the purpose of this construction, and their comments from the cars are curious. Some assert that they have seen it written down that the Huntington

tracks have been driven away from the municipality's trackwork. Some consider it a private system for a pipe line belonging to the gas works. Others look upon it as a temporary structure of a traditional duty dutifully performed. The small hours of the morning were following one another across the face of the clock before the assembly diminished.

Today is Mexico's great patriotic holiday, and it will be suitably honored tonight in Turner Hall, where a typical concert, followed by a ball, will be given under the auspices of the club. Curs Hidalgo, admittance by invitation only. No hall has yet proven spacious enough to contain all the people who come for admittance on these occasions, and tonight promises to be a record breaker.

Bishop Conity, Rev. Juan Caballero, Will A. Harris and other good speakers are on the program, and beautiful Spanish songs and dances will be featured.

and thrown away, it is constructed as solid as the city's bridge. It will be a desperate tug to pull those giant toothpicks up, if they ever do come out of the ground again. The company is evidently springing no expense in making it solid and substantial.

In a few weeks—as soon as it is completed—cars will begin to run over its diverging curve, and the old bridge will fall into the hands of the destroyers. Before the first of the year it will be replaced by the joint municipality and railway at a cost, whose plans call for an expenditure of \$20,000.

## "GRITO" SOUNDED.

Patriotic Salute and Revelry Mark the Beginning of Mexico's Day of Independence.

Sonoratown opened the local Mexican independence celebration last night with a free and easy "baile" on Buena Vista street, where soft-tanned music and gay lanterns, augmented by refreshments in a side room, made a merry evening.

Shortly after 11 o'clock aged Antonio Aguilar promptly smote the powdered anvil with all the might of his enthusiastic patriotism. The dance was suspended in anticipation of the salute, and following the noisy reminder of the approaching glorious anniversary of the independence of Mexico, the crowd gave vent to the characteristic "grito" of the Mexican people. Dancing was then resumed by the pleasure-loving lot with the reinforced vigor of satisfaction at the knowledge of a traditional duty dutifully performed. The small hours of the morning were following one another across the face of the clock before the assembly diminished.

Today is Mexico's great patriotic holiday, and it will be suitably honored tonight in Turner Hall, where a typical concert, followed by a ball, will be given under the auspices of the club. Curs Hidalgo, admittance by invitation only. No hall has yet proven spacious enough to contain all the people who come for admittance on these occasions, and tonight promises to be a record breaker.

## FIGHT ON CAR.

Colored Woman's Demand for Transfer Where None Are Issued Results in a Mix-up.

Yesterday evening about 7 o'clock there was a free fight, in which half a dozen or more of the passengers took a hand, on a westbound Pico-street car. A young colored woman asked for a transfer north on Washington street. When told by the conductor that a transfer could not be given to the Washington car, she became very angry and appealed to the passengers. A colored man immediately championed her cause and struck the conductor viciously on the face. For a few moments there was a lively scrimmage, with women screaming for help and men endeavoring to quell the disturbance. After a lively passage of blows, in which the conductor was slightly worsted, the colored fighter left the car. The woman who had stirred up the row refused to be pacified, and declared she would carry the matter to Mistah Huntington. Most of the passengers were disposed to side with the conductor, who was much disfigured.

## AUTO BALKS AT POLE.

Wild Dash of Motor Car Running Off Its Course—Result of Brick in Way.

Earl C. Anthony, manager of the Western Motor Car Company, tried to turn a telephone pole last night with an automobile. It jarred the pole considerably, and if there was not a short circuit among the wires on top there was down on the ground. Mr. and Mrs. Anthony were in the machine, made the circuit and landed safely without even bruises. The automobile was towed back to the shop, slightly disfigured, but with three wheels still turning. Anthony was not to blame. He is thinking of suing the city. A full-sized motor car, he said, had been struck by the pole. The red devil shot for the only pole in the top of the Seventeenth and Eighteenth streets on Broadway.

## PASTOR AND HIS BRIDE.

Rev. Herbert J. Weaver, pastor of the First English Lutheran Church, will arrive in the city this morning, accompanied by his bride, and a reception will be given in their honor at the church, Eighth and Flower streets, tonight at 8 o'clock, sharp. No formal invitations have been issued, and the public is invited, with a special invitation to all the ministers of the city.

## TALES OF THE TOWN.

Peace reigned in the Orpheum green room last night until—

In a full of Paul Barnes' conversation some one started to hum abstractedly "Good-bye, Dolly, I must leave you!" Then the reign of peace was over.

"Stop it!" almost yelled Barnes. "Is my persecution never to cease?" "In a moment of weakness I wrote that song," explained he in quivering tones. "Since then I have known very little peace. For months I believe my life was a nightmare. It would go into a restaurant, and the orchestra would be playing 'Dolly Gray.' I would go over to Chuey Island and every hardy and every music store had an insanely covered copy of the blamed thing stuck up in its windows, every time I met a friend I got that for a salute—it was terrible!"

"Previously, I had been in good health, and I am contented as any person has the right to be, but I began to eat, I became nervous, and my sweet disposition began to fade away like an oriental woman's raven tresses under peroxide treatment. It pains me to think that I have wandered away from my home over 300 miles from home. I should be reminded of that one weak moment in my career."

Barnes' history of the song is true and interesting. It illustrates a well-known fact that a publisher can never be certain just what is going to strike the public fancy. The author took the composition to Howley, Haviland & Co., who had published songs for him before. They did not like it, although Theodore F. Morse, who was their piano player then, was taken with its rhythm. Barnes called it "Dolly Gray" a two years' back.

## SANTA BARBARA.

NEW ROUTE THROUGH TOWN.

SANTA BARBARA, Sept. 15.—A rumor that the Southern Pacific Railway Company intend to build the proposed cut-off through Santa Barbara at once, is again current and several significant facts lend color to this theory. Ever since the company obtained the new right of way through the city and an abandoned definitely where the new depot site was to be, it has been reported from time to time that the new track would be laid before the heavy traffic of the winter months. Supervising Engineer Long has transferred his office force to this city. Yesterday Mr. Long's office car, fully equipped, was pulled from the south and side-tracked near the freight station. A force of engineers will be in town within a few days. The proposed cut-off will be about a mile and a half long when completed and will extend diagonally across the city, whereas at present there are two bad curves in the track. The main passenger depot is to be located immediately back of the Potter Hotel, and the station will be a handsome one, provided with all the conveniences for handling the heavy passenger business of the tourist season.

## SANTA MARIA.

BOY DROWNS IN LAKE.

SANTA MARIA, Sept. 15.—The three-year-old son of William Wright, an employee of the Union Sugar Company, drowned yesterday afternoon in Laguna Lake at Bitterwater. The child got into a boat, and after drifting from shore, fell overboard. Some of the lad's playmates seeing the accident ran to the child's home and told the father, who at once plunged into the lake and frantically searched for the child where it had been last seen. In a few moments the body rose for the third time a short distance from the boat. Upon being brought to shore every available means was resorted to to

bring the little fellow back to life, but it was too late.

John Stirling, a deaf mute, was sent to Santa Barbara today by Justice McGuire for disturbing the peace. Stirling got sixty days.

Eben Hopkins has sold his property south of town to a Los Angeles oil company, and will move to San Luis Obispo.

George Litten had one of his fingers severed today while at work on one of the Santa Maria Oil and Gas Company's oil wells.

## BARLOW SANATORIUM REPORT.

The first annual report of the Barlow Sanatorium has been issued. It is an interesting and concise report from beginning to end, and prints half-tones of the directors, who are J. S. Slauson, president; Mrs. John D. Hooker, vice-president; Dr. Norman Bridge, Mrs. Alfred Solano, E. W. Fox, Dr. J. S. Slauson, secretary and treasurer, and Miss Elizabeth Wolters, assistant secretary. There are also pictures of the buildings, and the money which has been received is accounted for, while the cause for which the sanatorium was built is plainly set forward. It is incorporated under the laws of California as a non-sectarian institution, and is for the benefit of the care of the indigent tubercular of Los Angeles county. During the first month four patients were cared for, and now the place has grown until there are accommodations for fifteen.

## GIRL'S BROTHER OFFERS REWARD.

LONGS TO LAY HIS HANDS ON W. AUGUSTUS WOLFE.

No Tidings of Missing Lizzie Davis, Youthful "Hello" Girl Believed to Have Eloped With Married Foreman—Dressmaker Identifies Him by Photograph.

A. H. Davis of No. 923 Judson street, brother of Elizabeth Davis, the fifteen-year-old "hello" girl who is believed to have eloped with W. Augustus Wolfe, until last Saturday night foreman of the Sunset Telephone and Telegraph Company's Boyle Heights construction force, has offered a reward of \$25 for information of the whereabouts of his sister and Wolfe, or either of them.

Mr. Davis has also sent the following telegram to his father at Oklahoma:

W. Augustus Wolfe has run off with my daughter Lizzie. What shall we do?

This telegram as first sent was reported undelivered, but upon being re-reached the girl's father. He expected to start at once for home.

No result has yet come from the sending out by the police of photographs and descriptions of Wolfe and Miss Davis. The girl's family thinks

W. AUGUSTUS WOLFE.

they may have gone south and crossed the line into Mexico, and that Lizzie's house that she was going to run away with Wolfe to San Francisco may have been made at the suggestion of Wolfe to throw pursuers off the scent.

Young Mr. Davis has, to his mind, established beyond doubt the guilt of Wolfe. He showed to Mrs. J. R. Hicklin, of No. 4239 Central avenue, who made the red silk, black-lace trimmed dress ordered by Lizzie Davis, the photograph which the accompanying half-tone was made. Said Mrs. Hicklin:

"That is a picture of the man who called at my house last Friday evening. He said he was Lizzie Davis's brother, but I didn't believe that—he didn't look anything like Lizzie, and didn't act like he was telling the truth. He said he had come for her dress, and would pay for it. I told him the bill for making it was \$5. He said his sister had told him it was \$4.50. But he paid me the \$5 and took the dress away."

Mrs. Hicklin's daughter, Grace, is employed at the telephone central, as was Lizzie. She is one of the girls to whom Lizzie said she was going to "run away with Mr. Wolfe to San Francisco Sunday morning." Miss Hicklin thought she was "joshing," and paid no special attention. Lizzie followed up her remark with the statement that what clothes she didn't wear she would buy by bus to San Francisco Sunday morning. These disclosures were made by Lizzie last week.

Wolfe, as told in The Times, has a wife and three small children, who were on a visit to Mrs. Wolfe's people at Fort Worth, Tex., when he and fifteen-year-old Lizzie Davis disappeared. His youngest child, a mere babe, is reported to be dying, and the mother had written to Wolfe begging him to send her money to bring the little one home.

If Wolfe, as every circumstance indicates, has run away with the Davis girl, he has laid himself open to enough criminal charge to send him to the penitentiary for the remainder of his natural life, though he is only 30 years of age. These charges could be abduction, adultery, rape and deserting minor children.

Young Davis said last night that

## DEATH IN CRASH OF TROLLEY.

OCCUPANT OF BUGGY KILLED ON SAN PEDRO STREET.

Corpse of Unidentified Man Crushed Between Electric and Horse Victims, Lies on Track Hour and a Half—Well Dressed, and Had Good Rig.

Main-street car No. 319 of the Los Angeles Railway Company, in charge of Conductor C. A. Bull and Motorist E. J. White, collided with a horse and buggy on San Pedro street, near Eighth, at 8:20 o'clock last night, instantly killing an unknown man, the buggy's occupant, and the horse.

The car was going out San Pedro to the barns, and carried no passengers. Eyewitnesses to the accident were few, but those who saw it say the car was running at an extreme rate of speed.

The man in the buggy was driving north on San Pedro street and appears to have been blinded by the glare of the headlights, for just before the crash he pulled directly across the track. The horse and front of the buggy were struck, and the driver went down under the wreck. His head was crushed between car and buggy.

The body remained where it had fallen across the north-bound track for an hour and a half before it was removed by the coroner, and buried in city-bound cars. When the remains were searched at Brees Bros. morgue nothing by which they could be identified was found in the pockets. He had in his possession a note addressed "Dear John," and signed "Your loving cousin, Helen," also a card of Miss De Vine, No. 446 Hill street, Miss De Vine is said to be out of the city, and could not be reached last night.

The victim of the accident was apparently 25 or 30 years of age, dark complexioned, small dark mustache, by the coroner, and buried in their honor at the church, Eighth and Flower streets, tonight at 8 o'clock, sharp. No formal invitations have been issued, and the public is invited, with a special invitation to all the ministers of the city.

## BORE MAY SOLVE BORING PROBLEM.

QUESTION OF ANOTHER TUNNEL FOR THIRD STREET.

Present Transit Tube Crowded With Teams and Pedestrians at Rate of Actual Thousands Every Day—Various Theoretical Solutions of the Puzzle.

What is to be done toward increasing the accommodations of the Third-street tunnel? This is a question seriously agitated on the west side of the big hill in the middle of town.

It is a pertinent question, for this transit tube is a means of communication between the heart of the city and a very large district of flats and apartment houses lying beyond. Larger apartments than now occupied are forecast in preliminary blue prints. The population is increasing faster than the population in a tenement district in New York's famous "East Side."

The traffic through the tunnel has grown beyond all expectation. A count by a man hired for the purpose the other day showed that in ten hours 1500 teams and 600 pedestrians passed through the great bore. These figures seem large, but they are true. This damp, cavern-like hole through the earth is as popular a thoroughfare now as were some of the principal streets a few years ago.

There are several propositions talked of but to date none of them seem to serve as a satisfactory means for relieving the congestion. Some favor the widening of the present tunnel, others believe a new tunnel should be cut at Fourth street, and some theorists think that if a little subsidiary hole twelve feet in diameter, were bored through for pedestrians only, it would fill the need.

As a practical matter, none of these schemes is available, apparently. If the tunnel is widened it may be weakened to the danger point. Property on the business district side of Fourth street, around Olive, is so very valuable that long litigation would doubtless follow any attempt at purchase for a new tunnel. The little tunnel would be dangerous, say some, on account of its very length, in comparison with its breadth, its small amount of light, and the possible treachery of ventilation.

W. S. Daubenspeck believes that the latter scheme would carry through—sees no reason why it should not, with proper precautions, and says something must be done, at any rate, to relieve the heavy traffic.

D. H. Hewitt said last evening: "There is a demand for relief of some sort, and we will either have a new tunnel or an addition to the old one, or some of us will have to go around the corner. My proposition has been broached, but the only thing that seems to find favor in the majority of eyes is a proposition to safeguard the tunnel sidewalk, widen it and get teams from running down pedestrians who have no way of escape."

Mr. Hewitt is a real estate operator, with his office just west of the tunnel entrance. He has been in touch with the movement since its beginning.

Olson & Jones, whose grocery store is at Third and Flower streets, say the time is rapidly approaching when the city or some wealthy private individual will have to remedy existing conditions, and provide more accommodations. They favor the safe-guarded sidewalk as the best relief for the present moment.

J. V. Hickman, contractor, whose work is in the vicinity, said: "All day long a cloud of dust goes up from the tunnel as though it were a battlefield, and the noise in its echoing corridor is like the business echo of a crowded day on Spring street. Some sort ought to be passed which will restrict such nuisances as the frightful motorcycle whose myriad fool drivers are banging in there like a small battery of Maxim guns."

A petition has been in circulation with the object of having the present sidewalk widened eighteen inches or two feet, with heavy iron gas pipe sunk in soft cement, and a solid unbreakable railing to be screwed into these substantial supports.

## THE CITY IN BRIEF. NEWS AND BUSINESS.

### Where is Robeson?

The Chief of Police yesterday received a telegram from Mitchell, Ind., asking him to try to get word to William N. Robeson, a Knight Templar excursionist, that an important telegram awaits him in this city.

### Forbes to Speak

At the session of the W.C.T.U. to be held today in Temperance Temple, Rev. Frank S. Forbes, pastor of the East Side Congregational Church, will address the audience on "Law, and its Enforcement."

### Clerk With Liabilities

A petition in bankruptcy was filed yesterday with the clerk of the United States District Court on behalf of I. H. Sproule, a Southern Pacific clerk of this city, who schedules his liabilities as \$284.57, and his assets as \$1650.

### Child Study Reception

The Child-Study Circle of the Washington-street school will give a reception to the parents and teachers tonight at 8 o'clock in the Olivet Congregational Church, Washington street and Magnolia avenue. There will be addresses, music and refreshments.

### Beveridge Returns

Ex-Gov. J. L. Beveridge, who has been seriously ill at Chicago, returned to Hollywood yesterday morning, accompanied by his son, Philip J. Beveridge, who was called East by the illness of his father. Gov. Beveridge stood the trip very well, and was reported improving last night.

### Prowler Nabbed

Francisco Romo was arrested last night while prowling barefooted around the upper floors of the Amersoy block, Requena and North Main streets. A lodger complained to a patrolman that the prowler had entered his room and remained in several articles. Romo is charged with burglary.

### Whitley Returns

H. J. Whitley returned yesterday from a four months' trip through Europe. Much of his time was spent in Scotland with friends and relatives at the home of his ancestors. Mrs. Whitley and daughter Grace, who accompanied him, remained in Paris with friends, and may visit Italy later when the weather is cooler.

### Dry Goods Change

The J. R. Lane Dry Goods Company succeeds the firm of Crandall & Lane. E. E. Crandall having sold his entire interest in the business at No. 327-329 South Broadway, his partner, The firm of Crandall & Lane was incorporated in 1903, buying out the Goodenow Company at that time. Mr. Lane intends enlarging and improving the business.

### Reception and Opening

This evening in the rooms on South Hill street a reception will be tendered the two new members who recently entered the local Y.M.C.A.—J. L. Graham of the boys' department and S. B. Kuria of the educational and religious work departments. This will be the evening for the formal opening of the night school for young men.

### Estimate Lady Dies

An estimable lady, Mrs. Virginia Harrington Colby, died at Banning yesterday morning, and the remains will be brought to this city for burial. Mrs. Colby was a sister of Marshall V. Harrington, editor of the Fruit World. The funeral will be held tomorrow at 2 o'clock p.m. at the residence of her mother, No. 2848 Hough avenue, and will be private.

### Going to Georgia

Noah Wright, a negro wanted in Georgia, where he escaped from the penitentiary while serving a term for burglary, was yesterday turned over to W. W. Champion, president of the Board of Commissioners of Spalding County, Georgia, who came to take the man back. Wright was arrested by the police and has been held in the city two weeks. Champion also had in custody G. H. Lanier arrested in San Francisco and wanted in Atlanta for embezzlement.

### Meeting Called Off

The mass meeting of citizens of the Second Ward set for this evening at Temperance Temple will not be held. The purpose was to discuss the action of the Pacific Electric Railway Company in withdrawing transfer privileges between the Temple-street and Angeles Heights lines and the cars of the Los Angeles Railway Company, and to take action on the subject. The transfers have been restored. In its announcement the committee states that the meeting will stand adjourned "until some future date when necessity may demand that it be held."

### "Dago Red" in Disguise

The recent disclosures in Los Angeles liquor traffic are not yet ended. It appears that dealers in dago red are sending it out in barrels to blind pigs under fictitious names. Friends of the Glendale storekeeper say he can't get an honest box of coal oil without dark suspicion since the publication of the scheme by which the breweries send out beer. The boxes of "cool oil" by the way, mentioned in The Times yesterday, were not sent to Glendale "blind pig" men, but to private individuals, who get the beer for home consumption under that disguise.

### Riot About a Bow-wow

A measly-looking bow-wow precipitated a little riot on Boyle Heights near Fourth and Matthews streets yesterday morning. William Vacher's crew of dog-catchers had scooped the canine in their drag-net and were preparing to take him to the pound, when the owner appeared and demanded his property. Hot words passed between the men and finally the brute owner drew a revolver. Other citizens went to their neighbors' support and a moment bloodshed seemed imminent. The patrol wagon was called, but when it arrived the dog-catcher and his crew had departed and the mob had dispersed.

### "Dearest Edward" in Seattle?

Mrs. Edward Long is convinced that her husband deserted her for another woman in Seattle, and now she doesn't care if "Eddie never comes back." Long is a butcher who left his wife at the Grand Opera house and went outside "to see a man." Yesterday a "lovey-dovey" epistle from Mrs. Ella Morrison of Seattle, wife of a cousin of Long, reached the Long home and was opened by the deserted wife. It showed that the Morrison woman was suing for a divorce and hoped to soon be with "dearest Edward." Mrs. Long ferreted out the disappearance unaided and yesterday she notified the police that no further search was necessary, as she is convinced her husband has gone north to join Mrs. Morrison.

### BREVITIES

Nearly a thousand handsome Los Angeles ladies will attend the greatest millinery opening of the season at Chicago Millinery, Mrs. A. Feintuch, 217 South Spring street, tomorrow. Vienna Ladies' Orchestra will render popular repertoire. Exceptionally handsome souvenirs, enough for a thousand, free. Elaborate decorations, brightly illuminated and most beautiful exhibition of imported New York and Los Angeles hats ever admired in this city; also great assortment of millinery hery.

Occidental Club. The office of the club has been removed to the Occi-

dental Club building, 535 South Broadway. Members are expected to call and leave their orders for stock. (The allotment of stock made by the board of directors will soon be exhausted.) Call or write before the 21st. Office on ground floor, open 7 a.m. to 6 p.m. Saturday evening until 10 o'clock.

Fine dinners at Hotel Rosslyn Cafe. Notice of removal. McGarvin & Robinson Co. will soon move to their new office, 308 Herman W. Hellman building, corner Spring and Fourth sts. Enrollment this week at Y.W.C.A. for classes in twenty-five subjects. Class work begins September 26th.

The Times' Home phone number has been changed from Exchange 2 to "The Times." Simply ask the operator for "The Times," no prefix or number being necessary.

Miss Clifford & Co., 611 S. Broadway, announce an opening display of fall and winter millinery for Saturday, September 17. No cards.

## DR. HOUGHTON CAN'T MAKE DENIAL STICK.

Breaks Down in His Meeting Before the Living Evidence.

Different Signatures in Chicago and Here—Affidavits Substantiate Exposed Printed Yesterday—Two to One Odds on Davenport in Today's Sixth Ward Election go Begging—History of "Recall" Case.

CONFRONTED by two men who had attended his fake seances in this city ten years ago, Dr. A. D. Houghton, the anti's candidate for Councilman in the Sixth Ward, last night broke down in the middle of his address that was to be his answer to the charges that he was a "spook doctor," and the anti-Davenport meeting broke up in considerable confusion. Speakers who had promised earlier in the week to take part in the evening

DR. D. L. SNEIDER, President of the Anti-Spook League, who was present at the meeting, said that he had been present at the fake seances of Dr. Houghton in Chicago, and that he had seen the same man who was now in Los Angeles.

programme, had read the exposed by the Christian Spiritualists in yesterday's Times, and they failed to put in an appearance at the meeting.

"I am satisfied," said A. M. Buck, who had taken the leading part in securing evidence against Houghton, after he listened to Houghton's attempted defense. "We did a good work for the cause in exposing that fellow. He reminds me of nothing so much as Dickens' character of Uriah Heep."

"That's the fellow," was the terse report last night of F. T. Merithew, who attended the Houghton exposure at No. 707 1/2 South Broadway on the night of November 5, 1894. "He was a fake seance man, and he had discovered a Times reporter in the hall. 'That's the way he started in when Boone and Jackson caught him and made him give our money back,'" continued Mr. Merithew.

W. C. Bowman, himself an old Spiritualist, was Houghton's only defender. Bowman said that it was wrong to attack Houghton because he was a Spiritualist. He said that it was bringing religion into politics.

This argument carried little weight even with the partisans present. They had come hoping to hear the doctor clear his skirts of the whole charge of connection with spiritualism. They found that they were destined instead to listen to a confession.

Houghton's appearance when he rose to speak was that of a convicted man. He started in by saying that he had a sick headache, and only came out to be seen. He then said that he had been a member of the party that exposed his fake seance.

He did not attempt to deny a single statement in "The Times" Thursday morning.

His eye fell on men standing near the door. He stopped short in the middle of a sentence that was never finished. They were the men who knew him here ten years ago, and one of them had been a member of the party that exposed his fake seance.

HOWTON TO HOUGHTON.

Additional evidence was unearthed yesterday by Mr. Buck and his associates, giving a connected history of the movements of Arthur B. Howton from the time he left Chicago in 1893 to go to the Midwest Fair in San Francisco, on a ticket furnished by his then friend Frank Allen until his appearance under the name of Arthur D. Houghton, with a prefix of "doctor," as a candidate for Councilman in the Sixth Ward.

SWEARS HE'S SAME MAN.

F. T. Merithew, after attending the Houghton meeting on Central avenue, made the following affidavit as additional proof, if such were necessary, that the Sixth Ward candidate is the same man who was exposed here in November, 1894:

F. T. Merithew, being first duly sworn, deposes and says that he is a resident and voter of Los Angeles; that he was present at the seance given in the rooms of Mrs. Rose at No. 707 1/2 South Broadway on the night of November 5, 1894; that the medium was at that time exposed, and that the money paid was returned; that he had occasion to observe the medium closely during the evening; that on that evening of September 15 he visited a hall on South Central avenue and heard Dr. Arthur Houghton, candidate for Councilman in the Sixth Ward, deliver an address; that he observed the speaker closely, and that to the best of his information and belief it was the same man who was exposed on South Broadway on that November night in 1894; that his memory was refreshed by the fact that every gesture and tone of voice of the speaker was identical with that of the medium of 1894; that in facial expression, figure and color of eyes and hair tallied perfectly with that of the medium. Further the affiant swears that.

(Seal) F. J. MERITHEW.

Subscribed and sworn to before me, this 15th day of September, A. D. 1904.

C. G. KEYES, County Clerk.

By P. L. Johnson, Deputy.

MR. BUCK'S AFFIDAVIT.

A. M. Buck, who has taken a leading part in the Houghton exposure, last

night made the following affidavit as to the correctness of the interview with Mrs. Frank Allen, who appeared in Thursday morning's Times. It was in Mrs. Allen's mother's parlors that the exposed took place. Mrs. Rose, now Mrs. Arthur Houghton, and Mrs. Allen's mother, rented the flat jointly:

A. M. Buck, being first duly sworn, deposes and says that he is a resident of Los Angeles, having lived here for eight years, that he was at the residence of Mrs. Frank Allen near South

Central avenue, on the night of Thursday, September 15, 1904, and that he saw and conversed with Mrs. Allen, who was then known as Mrs. Frank Allen, and that she told him that she had been present at the fake seances of Dr. Houghton in Chicago, and that she had seen the same man who was now in Los Angeles.

He also told him that she had been present at the fake seances of Dr. Houghton in Chicago, and that she had seen the same man who was now in Los Angeles.

## NOT SQUARE, THEY DECLARE.

Citizens Condemn the City from Every Point.

Sympathy is Entirely With Fernando Ranchers.

Water Trick Provokes All Men's Indignation.

Should the city of Los Angeles succeed by litigation in taking away the San Fernando Valley ranchers' water, it will stand condemned by many of its own citizens, hated by a large number of its best customers, disapproved by thousands of Californians, and made an object of suspicion to intending settlers. This is what many prominent Angelenos say.

A pretty big price to pay.

The Times has interviewed many persons of various avocations in Los Angeles, and has yet to find one unbiased man who countenances the city step.

There are in the San Fernando Valley about 200 square miles of tillable land, exclusive of hill country. Most of this soil is of little value without irrigation, but famously fertile under water. The valley's population approximates 100,000 people, an estimate comparable as to be found in any rural district in the world. These people bought, or leased, the lands they occupy, and then acquired them as a state of proprietary right to everything under the lands and above within the confines of their areas. By the investment of capital and application of industry they have developed these lands from a desert condition to a state of agricultural and horticultural prosperity and corresponding value. In the installing of water-developing medium, they alone they have spent no less than \$500,000.

They have advanced their lands to a yearly producing capacity of \$250,000 in oranges and lemons, \$250,000 in olives, \$150,000 in English walnuts, \$250,000 in berries, and a garden of many thousands of dollars in peaches, apricots, grapes, poultry, dairying and alfalfa.

All this they have done in good faith.

Los Angeles is their natural market; the great bulk of their produce goes into Los Angeles markets for consumption or through Los Angeles for other parts.

The greater portion of their purchases are made in Los Angeles, and all their supplies pass through Los Angeles.

They are gilt-edge customers of this city, on a big scale.

SIMPLE, BUT TRICKY.

But Los Angeles, the metropolis of Southern California, has grown much faster than its back country, and now, in the year 1904, with a population of 150,000 and daily getting bigger, finds itself in need of more water. Fed up in great part by families from sections of the country where rain falls in abundance through all seasons of the year, and who therefore know little or nothing of water economy, the city authorities find that its water supply threatens to become inadequate to the domestic demand, swelled to unreasonable proportions by private wastefulness.

How shall the supply be increased?

The main source is the subterranean flow of the Los Angeles River. Out in the San Fernando Valley there is lots of water. The farmers have developed it, by sinking wells. A little investigation shows that the water in these wells is drawn from the flow of subterranean streams tributary to the Los Angeles River.

That information spells solution.

For a way back in 1850-April 4 of that year, to be exact—the Pueblo de Nuestra Señora la Reina de los Angeles was erected into the corporate city of Los Angeles, and thereby became possessed of the legal right to "all the waters of the Los Angeles River, and its tributary streams, within an area of four square leagues, having for a center the Plaza."

Then the San Fernando ranchers are really coach-runs—using water that, no matter, if they did develop it, belongs by law to the city, by virtue of an old Spanish grant. What, then, take it away from them; make 'em give it up.

How simple!

NOT FAIR NOR SQUARE.

Said F. J. Hart, manager for the Southern California Music Company, No. 333 South Broadway: "The plea taken in the city by the city of Los Angeles, and thereby became possessed of the legal right to 'all the waters of the Los Angeles River, and its tributary streams, within an area of four square leagues, having for a center the Plaza.'"

Then the San Fernando ranchers are really coach-runs—using water that, no matter, if they did develop it, belongs by law to the city, by virtue of an old Spanish grant. What, then, take it away from them; make 'em give it up.

How simple!

NOT FAIR NOR SQUARE.

Said F. J. Hart, manager for the Southern California Music Company, No. 333 South Broadway: "The plea taken in the city by the city of Los Angeles, and thereby became possessed of the legal right to 'all the waters of the Los Angeles River, and its tributary streams, within an area of four square leagues, having for a center the Plaza.'"

# City and Country.

NEWS OF THE MORNING.

PRICE 3 CENTS

are mostly representative business men—I've heard express an opinion has unequivocally condemned the city's action. Public sentiment isn't often wrong.

C. Knaggenheim, manager for Fairbanks, Morse & Co., Second and Los Angeles streets: I think it's a rather late day to inform the San Fernando ranchers that they are using somebody else's water. I don't think a business man would want to stand for such a deal. If the city must have the ranchers' water, the ranchers are entitled to be bought out by the city, lock, stock and barrel, at a high price. If that would cost too much, as undoubtedly it would, that is no argument for ruining men who were given no warning that the water they developed would not be theirs.

STOP PRIVATE WASTE.

C. M. Heintz, editor of Rural Californian: I live in Los Angeles and help to use Los Angeles water, but the other fellow's side appeals to me. If it were not for the shameful waste our water supply would be abundant for the city's needs. There are scores upon scores—hundreds, perhaps—would be more correct—homes in Los Angeles whose owners or tenants allow the water to run to waste in such quantities, that it flows across the sidewalks into the streets. Is the San Fernando farmer to blame for that?

For Los Angeles to claim and appropriate the subterranean water flow in the San Fernando Valley would be to kill tens of thousands of fruit trees, devastate scores of farms, and reduce the value of the most fertile and prosperous localities in this region to its original desolate state. Whatever may be the "right" by hook or crook of legal technicality, ought Los Angeles—ought any city—to do it?

For the future Los Angeles' water supply has got to be bigger than it is—much bigger. Is it foresight, then, to steal the Fernando ranchers' water for all increase that itself would soon become inadequate; or should we go into the mountains and set about the obtaining of an honest supply that shall be commensurate with future needs?

What says the Secretary of the Treasury Shaw said in the Times a few days ago? "Build big! Build for the future—not the future of ten or twenty years, but of fifty."

ASSISTANT CASHIER.

Young Paying Teller of Union Bank of Savings Promoted to Higher Position.

George N. Turner, a promising young man in local banking circles, was yesterday appointed assistant cashier of the Union Bank of Savings, where he has been paying teller two years.

George N. Turner.

Mr. Turner is quite young for the important position,

## Second Week... September Linen Sale

With the number of new houses that have recently been built in this city and the hundreds of new families recently moved here, it is reasonable to suppose that a great many housewives will have to see to it right away that they get a supply of table linen along with other house furnishings, and we say candidly that no such prices on table and household linens as are quoted in our September Sale have any duplicates at the price in any store in Los Angeles.

- Irish Table Damask**—64 inches wide, half bleached, of heavy weight; in pre-ty floral patterns; a 70c value at, per yard..... **50c**
